PALM BEACH POLICE DEPARTMENT

DIRECT CONNECT ALARM SYSTEM

The Palm Beach Police Department is committed to using every resource at its command to assist the business community. Advances in computerization have now made it possible for the Police Department to offer a valuable new service.

As a business owner in the Town of Palm Beach, you can have your business burglar alarm connected directly to the police department – in addition to your alarm company.

WHAT IS THE ADVANTAGE OF THE DIRECT CONNECT ALARM SYSTEM?

*If your alarm is activated, your alarm monitoring company and the Palm Beach Police Department will be notified simultaneously. This will allow us the immediate dispatch of police officer – avoiding the delay between the time the alarm monitoring service is notified, confirms the emergency, and then calls the police department. With the **Direct Connect Alarm System** the police department and your alarm company are notified at exactly the same time. This will allow the police department to respond even more quickly to alarm activation at your business.*

CAN I CANCEL MY PRESENT ALARM COMPANY?

*This system works in conjunction with your alarm company and in order to participate in **DIRECT CONNECT ALARM SYSTEM**, you must maintain your burglar alarm service. If your current alarm does not include a duplex reporting system, your alarm company may charge you a one-time fee for installation of this feature.*

WHAT ABOUT FALSE ALARMS?

*With the **DIRECT CONNECT ALARM SYSTEM**, the Palm Beach Police Department will respond to all alarm calls. You will not be charged for a false alarm if the false alarm is an accidental activation by human error.*
