At this next screen, you will see several fields for which you can search for a permit. Select the first line "**PERMIT NO.**" Input the permit number from the receipt you have received at permit submittal. (Example: B1223162) Next click "**SEARCH FOR PERMITS**" at the bottom of the page.

Note: You will get the best results by being as specific as possible. If you know your permit number or your customer number, use either one. Searches by Permit Type, Last Name, or an incomplete Street Address may return too many records for display and you will be returned to this page to narrow your search criteria. For additional search strategies, click Advanced Search Help.

Permits issued between 1/01/2003 and 10/05/08 start with an "X" instead of a "B". If you are searching for permits prior 1/1/2003, contact our Records Division.
