QUESTIONS?

For more information on system requirements and questions regarding this program, contact Lead Telecommunications Supervisor Christine Cunningham at 561-227-6460

If your alarm is activated, your alarm monitoring company and the Palm Beach Police Department will be notified simultaneously. This will allow us to immediately dispatch a police officer – avoiding the delay between the time the alarm monitoring service is notified, confirms the emergency, and then calls the police department. With the Direct Connect Alarm System the police department and your alarm company are notified at exactly the same time. This will allow the police department to respond even more quickly to alarm activations at your residence.

This system works in conjunction with your alarm company and in order to participate in DIRECT CONNECT ALARM SYSTEM, you must maintain your burglar alarm service. If your current alarm does not include a duplex reporting system or does not send the signal over a landline, your alarm company may charge you a one-time fee for installation of this feature.

SPECIAL RATE FOR 2015

First time customers – Sign up by 9/30/2015 and have the one-time administrative set-up fee (\$100) and the first annual fee (\$100) waived!

****Town of Palm Beach alarm permit required.**

Contact Lead Telecommunications Supervisor Christine Cunningham at ccunningham@palmbeachpolice.com or 561-227-6460 to sign up or for more information.
